CLASS 5 LICENSE • OWN TRUCK • AVAILABLE FOR SHUTDOWNS & INDUSTRIAL PROJECTS

PROFESSIONAL SUMMARY

Industrial trades worker and Steamfitter-Pipefitter apprentice with commercial construction, layout, welding, rigging, and field-support experience across demanding job sites.

Successfully completed NAIT Pipe Trades Common First Period training and demonstrated the practical and technical competencies expected of a first-year Steamfitter-Pipefitter by passing the Alberta Apprenticeship and Industry Training (AIT) examination.

Experienced supporting construction, renovation, maintenance, and industrial work crews in physically demanding environments requiring safety compliance, productivity, adaptability, and strong mechanical aptitude.

Seeking a long-term opportunity with an employer willing to sponsor apprenticeship hours while contributing immediately to shutdowns, fabrication, maintenance, and industrial projects.

CORE COMPETENCIES

- Industrial Construction Support
- Pipe Fit-Up & Trade Support
- SMAW & GMAW Welding
- Oxy-Acetylene Cutting
- Blueprint & Print Interpretation
- Layout & Measurements
- Rigging & Material Handling
- Hand & Power Tool Proficiency
- Safety Compliance & FLHA Awareness
- Shutdown & Turnaround Readiness
- Team Collaboration & Communication
- Physically Demanding Field Work

EXPERIENCE

NAIT — Pipe Trades Common First Period
Edmonton, AB | May 2026 – June 2026

- Trained in SMAW and GMAW welding practices, oxy-acetylene cutting set-up and operation, spool fit-up, tack welding, and trade safety procedures.
- Developed working proficiency interpreting pipe drawings, weld details, blueprints, and fabrication layouts for accurate fit-up and installation support.
- Demonstrated strong aptitude for mechanical systems, measurements, layout, and industrial trade practices.

MeadowBrook Construction — Service Handyman
Mississauga, ON | March 2024 – September 2025

- Interpreted blueprints and performed layout measurements while supporting commercial construction and maintenance operations.
- Assisted with rigging support, material coordination, equipment operation, and site logistics to maintain workflow efficiency.
- Maintained safety compliance standards including Job Hazard Assessments and safe work procedures on active job sites.
- Built a reputation for reliability, adaptability, and handling physically demanding work environments.

Scoburgh Group Carpentry — Carpenter
Toronto, ON | August 2020 – December 2022

- Assisted Journeyperson tradespeople with framing, concrete work, demolition, drywall, and structural steel installation.
- Supported layout, assembly, and installation tasks requiring precision measurements and blueprint interpretation.
- Worked effectively in fast-paced construction environments requiring teamwork, safety awareness, and productivity under deadlines.

OddJobs HandyMen — Sub-Contractor
Waterloo, ON | August 2023 – February 2024

- Completed renovation, repair, installation, and maintenance projects independently and within team environments.

- Utilized hand and power tools safely while coordinating tasks across multiple job sites.

Fleet Optics Inc. — Courier Contractor

Mississauga, ON | October 2025 – February 2026

- Managed time-sensitive deliveries and logistics while maintaining efficiency, reliability, and vehicle safety standards.
- Demonstrated strong work ethic and adaptability during relocation transition to Alberta.

SAFETY CERTIFICATIONS

- H2S Alive®

- CSTS-20

- Fall Protection
- Confined Space Entry & Monitor
- Mobile Elevated Work Platform (MEWP)

- WHMIS
